Hi Bob,

Is the NRC public meeting on Doel still going to happen on March 5th? I keep looking for the announcement but nothing yet.

Did you guys get hit by the snow storm?

Thanks,

Subject: Doel 3 - Tihange 2 RPV: FANC Provisional Evaluation Report

Importance: High

Dear all,

On behalf of the Federal Agency for Nuclear Control I would like to inform you that the FANC has issued a Provisional Evaluation Report on the Doel 3 and Tihange 2 RPV issue. In attachment you can find a copy of this report.

The main conclusions of this report are as follows:

The Federal Agency for Nuclear Control received on 5 December 2012 two Safety Case reports on the flaw indications found in the Doel 3 and Tihange 2 reactor pressure vessels.

Once the licensee has implemented its action plan, the FANC, together with Bel V and AIB-Vincotte, will evaluate whether all the safety concerns at the origin of the requirements are solved and whether the related reservations can be lifted. On this basis, the FANC will motivate its decision about the possible restart of the Doel 3 and Tihange 2 reactor units in a subsequent final evaluation report.
