Mr. Thompson,
Smiths Detection does indeed plan to apply the same commitments made in our May 30, 2013 letter to the use of licensed materials listed in 6.B, Sealed Source (Eckert & Ziegler Isotopes Model SKRB 18147 and SKRB 17540) as those applied in section 6.A.
Please do not hesitate to contact me directly if you require any additional information concerning this proposed amendment.

Thank You,

Very respectfully,

Gary Shelton
Sr. Radiation Safety Officer
Smiths Detection Inc.
