

UNITED STATES NUCLEAR REGULATORY COMMISSION

Date: July 1, 2025

SUBJECT: JOINT STATEMENT FROM THE COMMISSIONERS

The Nuclear Regulatory Commission finds itself in an unprecedented position, unique in the agency's history. The executive orders from the President and direction from Congress in last year's ADVANCE Act have defined a bold new path for the agency to execute our important mission to enable the safe and secure use of nuclear technologies. We know that in times of so much change, things can feel uncertain. As we navigate this dynamic environment, we want to take a moment to acknowledge the efforts and resilience this agency has demonstrated and thank you all for your dedication. We fellow Commissioners are aligned and working together collegially to meet these shared objectives for change, continue our critical daily operations, and lead our agency in this new era.
