

Welcoming Remarks

Daniel Dorman, Deputy Director
Office of Nuclear Materials Safety and Safeguards
U.S. Nuclear Regulatory Commission

July 27, 2011

Introduction

- Response to Fukushima Dai-ichi
- Waste Confidence
- Extended Storage

Response to Fukushima

- Near-Term Task Force
 - No imminent risk
 - Operating reactor focus
 - Perspectives on spent fuel
- Long-term review awaiting Commission direction

Waste Confidence

- 10 CFR 51.23 - Revised December 2010
- Commission generic determination
- Not a licensing decision

Extended Storage and Transportation

- Long term review of framework
- Identification and prioritization of research needs for aging and monitoring
- Shared research activities
- Public Meeting in September 2011

Today's Workshop

- Near-term improvements to storage and transportation framework
- Benefit both emergent and long-term regulatory needs
- Stakeholder engagement makes it work
