

RIC 2000

Session T8:

Use of Risk Insights in

Current Licensing Activities:

Risk-Informed

Technical Specifications

Risk-Informed Technical Specifications

- ! Exactly what and how are we risk-informing?
- ! Is there enough benefit to pursue rulemaking?
- ! Can the requirements of the maintenance rule be substituted for the current actions with fixed allowed outage times?
- ! How much operational control is the NRC ready to transfer to licensees?
- ! How can the safety benefits be communicated to stakeholders?
