

RIC 2005

Session W-F3

EXPANDING THE BENEFIT OF PERFORMANCE INDICATORS

Improving Regulatory Assessment

James W. Andersen, Section Chief,

Inspection Program Branch

USNRC - Office of Nuclear Reactor Regulation

March 9, 2005

Benefits of Performance Indicators (PIs)

- Licensees respond to them
- Drive better performance
- Identify plants with declining performance
- Informs the inspection program

PI Results

- Improved performance in some areas
- Focused licensee attention on important areas
- Number of greater-than-green indicators declining
- Frequently asked question trends

PI Opportunities

- Improve performance in other areas
- Better indicators of performance
- Less burdensome to report and oversee

Expanding the Benefits of PIs - Summary

- Improve industry performance
- Continue to refine PI Program
- Individual plant benefits
- New areas for PIs
- Focus inspection resources
