

Jason Schaperow is a severe accident analyst in the U.S. NRC's Office of Nuclear Regulatory Research. His experience includes the reactor and spent fuel pool security assessments, the revised source term rebaselining, and evaluations of steam generator tube integrity. He has expertise in accident progression, source term, and consequences. His experience also includes five years at Naval Reactors Headquarters. He has a B.S. in Chemical Engineering from RPI and a M.S. in Nuclear Engineering from the University of Maryland.
