

Melvyn N. Leach, Director
Division of Preparedness and Response
Office of Nuclear Security and Incident Response

Mr. Melvyn Leach is the Director for the Division of Preparedness and Response in the Office of Nuclear Security and Incident Response. His responsibilities include incident investigation, emergency response and interaction with other Federal, State, and local government agencies, as well as nuclear power plant and other NRC-licensed facilities, on emergency preparedness activities.

Mr. Leach has more than thirty (30) years of nuclear power plant operations and regulatory oversight experience. Prior to joining the NRC, in 1990, he served in plant operations positions in the Royal Navy's nuclear submarine program and in U.S. commercial power plants.

Mr. Leach received a B.S. degree in Electrical Engineering in 1973 from the Royal Naval Engineering College and an M.S. degree in Nuclear Engineering in 1985 from the University of Washington. In addition to his management skills, his critical areas of expertise are nuclear power plant operations, maintenance, and inspection and nuclear fuel facility design and operations.
