

Mr. Ervin Geiger has more than 26 years engineering experience in nuclear power -- 25 years at Bechtel Power Corporation and 1-plus years at the NRC. He has extensive experience in the design of both BWR and PWR nuclear plants, having been involved in the design of the Grand Gulf and Wolf Creek nuclear plants, restart of Browns Ferry Unit 1 and replacement of steam generators at eight PWR plants.

Since coming to the NRC in 2005, Mr. Geiger has been assigned to the Office of Nuclear Regulatory Research, Division of Fuel, Engineering and Radiological Research, Mechanical and Structural Branch. He has been managing research projects associated with the resolution of GSI-191.

Mr. Geiger has a Bachelors Degree in Mechanical Engineering from Cleveland State University and is a Registered Professional Engineer in the State of Ohio.
