

Bob Halstead has been Transportation Advisor to the State of Nevada Agency for Nuclear Projects since 1988. His primary responsibility is assessment of Yucca Mountain transportation impacts. From 1978 to 1988, Halstead worked on a broad range of energy facility impacts and energy policy issues for the State of Wisconsin Energy Office, the Wisconsin Great Lakes Coastal Management Program, and the Wisconsin Radioactive Waste Review Board. Halstead has worked as a consultant on nuclear waste transportation and storage for the States of Minnesota, Tennessee, and Texas, and the Law and Water Fund of the Rockies.
