

Mr. John Price joined UniStar Nuclear in June 2006 as the COLA Coordinator. He is responsible for the coordination, development, and submittal of the license applications and permits for the fleet of Evolutionary Power Reactors (EPRs) being developed by UniStar Nuclear. Mr. Price was most recently involved in the licensing of the National Enrichment Facility. Mr. Price has been with EXCEL Services Corporation for over 20 years working on various power up-rate and Improved Technical Specification projects. Mr. Price was also involved with the construction, licensing, and operation of the River Bend Station and Limerick Unit 2.
