

Dr. Tom Kress is past chairman of ACRS and is currently serving his fourth term of the committee. He retired from Oak Ridge National laboratory after 35 years where he was involved in design and safety aspects of Light water reactors (LWR), Liquid Metal Fast Breeder Reactors (LMFBR), molten salt reactors, gas cooled reactors and nuclear space applications. He has also been a member of OECD/CSNI group of experts on source terms and aerosols. He has also been involved in producing International Atomic Energy Agency (IAEA) TECDOCs particularly on the review of Chernobyl
