

Construction Inspection Program

Marilyn C. Kray

Vice President, Project Development

Exelon Nuclear

Regulatory Information Conference

March 14, 2007

Context

- Stakeholders share common objectives
- Past construction experience
- Recent US experience
 - Major plant modifications
 - Browns Ferry restart
- Recent global experience

What's Different?

- Culture
 - Corrective Action Programs
 - Employee Concerns Program
 - Benefit of operating experience
- Standardized designs complete before construction starts
- Construction techniques
- NRC approach

Points for Consideration

- Acknowledge existing elements of Construction Inspection Program
- Develop overview assessment process based on applicability to a construction project
