

Mr. Ralph Andersen is the Director of Radiation Safety & Low-Level Waste Management at the Nuclear Energy Institute (NEI) in Washington, DC. He represents the nuclear energy industry to the Congress, federal agencies, and other organizations on generic policy matters related to radiation safety, environmental protection, and radioactive waste management. Before joining NEI in 1992, Mr. Andersen had worked for 20 years in radiation protection and low-level waste management in the areas of nuclear energy, research, education, and medicine, holding such positions as the Radiation Protection Manager at the Detroit Edison Company's Fermi 2 nuclear power plant, Radiation Safety Officer and Lecturer in the Department of Physics and Astrophysics at the University of Colorado, and Principal Researcher and Associate Radiation Safety Officer at the University of Maryland Medical Center. Mr. Andersen is a certified health physicist by the American Board of Health Physics. He received his B.A. degree from the University of Maryland and did graduate work in the Department of Radiation Biology and Radiology at Colorado State University.
