

**RIC 2008
NUCLEAR SECURITY**

Richard P. Correia
Deputy Director For Security Oversight
Division of Security Operations
Office of Nuclear Security and Incident
Response

March 12, 2008

2007 in Retrospect

- NRC licensees' security remains effective
- Completed cycle 1 of Force-on-Force Inspections
- Issued the 2nd Report to Congress on results of security inspections
- Baseline inspections continue to be effective
- Completed accelerated MC&A inspections
- Issued 9 generic communications

2008 SECURITY OVERSIGHT ACTIVITIES

- Began cycle 2 of Force-on-Force inspections
- Continue baseline inspections
- Complete MC&A program integration into security corner stone of ROP
- Increased use of generic communications and operating experience
- Further evaluate increased openness with stakeholders

SUMMARY

- Security at NRC licensed facilities remains sound
- NRC security oversight effective and stable
- NRC seeks continuous improvements from events & findings
- NRC seeking to enhance communications & information with stakeholders
- Nation must remain vigilant
