

**RIC 2009
Nuclear Security**

A. David Huttie
Entergy
March 11, 2009

What We Have Done

- **Industry Participation** – Entergy has participated in the industry review meetings providing a fleet perspective that is knowledgeable and balanced.
- **Developed Metrics** – Entergy has developed Metrics for all the new rules identifying the new gaps to ensure actions are tracked and completed on time.
- **Pro-active Approach** – Entergy is developing a pro-active approach in resolving identified gaps providing a flexible use of resources and tactics ensuring flexibility for the future.

Challenges

- Error likely traps for non-compliance with the new rule.
- Distraction from primary mission while implementing the new rule requirements.
- Training and new officer hiring impacts.
