

Matthew Bernard

Matthew Bernard holds a bachelors degree in nuclear engineering from the University of Missouri-Rolla. He graduated in 2008 and joined the Nuclear Regulatory Commission as a Reactor Systems Engineer in the Nuclear Safety Professional Development Program. The NSPDP provides an opportunity for young engineers to gain a better understanding of the NRC's mission through classes and unique projects in their first few years in the agency. Matt works in the Code Development Branch of the Office of Regulatory Research and is one of the developers of the thermal hydraulics code, TRACE.
