

**Mr. Ken Canavan – Electric Power Research Institute**

Mr. Ken Canavan is the Risk and Safety Program Manager for the Electric Power Research Institute, and manages all aspects of the EPRI risk technology program. Prior to joining EPRI, Ken was Manager of Risk Analysis for Data, Systems and Solutions and a Supervisor at ERIN Engineering and Research. He has over 20 years of experience in the nuclear power industry with both GPU Nuclear, the previous owners of the Three Mile Island and Oyster Creek nuclear generating stations, and Toledo Edison at the Davis-Besse nuclear power station.
