

## **Michael Case**

Mr. Case is currently Director, Division of Engineering, Office of Nuclear Regulatory Research (RES). He joined the NRC as an Operations Engineer in the Division of Licensing Performance and Quality Evaluation, in the Office of Nuclear Reactor Regulation (NRR), in 1989. Since that time, he has held progressively more responsible positions including Technical Assistant, Division of Reactor Programs, NRR, and Chief, Resource Management Branch in the Program Management, Policy Development and Planning Staff, NRR. Mr. Case served as the Director, Program Management, Policy Development and Planning Staff, from July 2001 until July 2004. From July 2004 until October 2006, he served as the Deputy Director, Division of Inspection Program Management. In 2006, he was appointed to Director of the Division of Policy and Rulemaking. Prior to coming to the NRC, Mr. Case was a licensed Senior Reactor Operator at commercial BWR and served in the United States Navy. He holds a B.S. degree in Biology from Fordham University.
