

Robert Hardies

Mr. Hardies started his U.S. Nuclear Regulatory Commission career in 2005 as a Senior Materials Engineer in the Division of Component Integrity in the Office of Nuclear Reactor Regulations. In 2006, Mr. Hardies became Chief of the Component Integrity Branch in the Division of Engineering in the Office of Nuclear Regulatory Research where he was responsible for research related to structural integrity of reactor coolant primary pressure boundary piping and vessels. Prior to joining the NRC, Mr. Hardies worked for the David Taylor Naval Ship Research and Development Center and for 16 years in the commercial nuclear power industry for Constellation Energy.
