

Lois James

Ms. James joined the NRC in 1997 as a Reactor Inspector in Region I, and is currently the Branch Chief for the Probabilistic Risk Assessment Operational Support Branch (APOB) in the Division of Risk Assessment (DRA) in the Office of Nuclear Reactor Regulation (NRR). Before joining NRR/DRA, she has held progressively more responsible positions in Region I and Headquarters, including resident inspector at Indian Point Units 2 and 3 in Region I, Inspector Training Coordinator in NRR's Division of Inspection and Regional Support, Senior Staff in NRR's Division of Program Management, Policy Development and Analysis Staff, and Branch Chief in NRR's Division of Operating Reactor Licensing. Ms. James earned a Bachelors Degree in Nuclear Engineering from Georgia Institute of Technology and a Masters Degree in Environmental Engineering from Johns Hopkins University. She is also a graduate of the 2008 Leadership Potential Program.
