

Mr. Jeff Julius – Scientech

Mr. Jeff Julius is a PRA Technical Manager for Scientech, and manages all aspects of PRA programs and projects. Mr. Julius has over 27 years of operating and analytical experience in the nuclear power industry. He is an internationally recognized human reliability analysis (HRA) expert with extensive experience in methods development and application. Mr. Julius is currently Project Manager for the EPRI HRA Users Group consisting of 19 U.S. utilities, representing over 70 plants world-wide. He currently leads the EPRI HRA Users Group's participation in joint projects with the USNRC; including projects for Fire HRA methods development, comparing HRA methods to simulator empirical data, and methods integration.
