

Didier Louvat

Didier Louvat graduated in Geology in 1984 at Paris University and completed a Ph.D. in Isotope Geochemistry at the same University in 1987. He started his professional career in 1987 at the International Atomic Energy Agency (IAEA) working on the application of nuclear techniques in the resolution of environmental problems. In 1992, he joined the Department of the Nuclear Fuel Cycle of the French Atomic Energy Commission where he developed research programmes related to the geological disposal of radioactive waste. In 1999, he became the Head of the Environmental Radioactivity laboratory of the French Institute for Radiation Protection and Nuclear Safety. In 2004, he returned to the IAEA where he is presently leading the IAEA Programme on Radioactive Waste Management and is the Head of the Waste and Environmental Safety Section in the IAEA Department of Nuclear Safety and Security.
