

Philip Moor

Philip Moor has over 30 years experience in the power industry. He has been involved with design, engineering, construction, operation and decommissioning of nuclear facilities.

Philip provides technical, management and project management consulting services to government and industry clients. Philip is very familiar with all current small, advanced and large reactor technologies. He is current VP commercial nuclear programs at Tetra Tech.

Previously Philip was Director of Project Development at ABB Energy Ventures where he led teams for power and co-generation projects in Trinidad, Puerto Rico, Brazil, New England, western US and in the Midwest.

Prior to his work at ABB, Mr. Moor was associated with General Public Utilities Nuclear. There he served as Director – Project Management, responsible for all capital expenditures regarding modernization and rehabilitation at GPUN's nuclear generating facilities.

He has been a speaker at numerous technical conferences and has testified before the House Energy and Commerce Committee on small modular reactors.
