

**Mr. Bijan Najafi - SAIC**

Mr. Najafi is Manager of Fire Protection Section at Science Applications International Corporation. Since late the 80s, he has been instrumental in the development of the fire research program at EPRI. The products of this program have been used in the U.S. and internationally in Europe and parts of Asia and South America. Mr. Najafi is the technical lead for the EPRI team working on the EPRI/NRC-RES Fire PRA Methodology (EPRI 1011989 & NUREG/CR-6850). He is a principal member of the NFPA Technical Committee on Fire Protection for Nuclear Facilities (NFPA 801/805/806), a member of the core writing team for the ANS fire PRA standard, and a principal member of the SFPE task groups for the development of the *Engineering Guide to Performance-Based Fire Protection* and *Risk Assessment Guidelines*.
