

Toru Osaki

Mr. Osaki is Director of the Aging and Material Reliability Evaluation Group, Nuclear Energy System Safety Division in Japan Nuclear Energy Safety Organization (JNES), a technical support organization for nuclear regulation in Japan. He has been responsible for R&D regarding materials degradation as well as regulatory review on plant life management since the establishment of JNES in 2003.

Before joining the JNES, he worked as a director in the Japan Power Engineering and Inspection Corporation (JPEIC) and oversaw its R&D program.

Previously Mr. Osaki has been in charge of design and R&D of PWR plant in Mitsubishi Heavy Industries Inc. for more than 25 years.

Mr. Osaki received his bachelor's and master's degrees in nuclear engineering from Kyoto University, Japan in 1973 and 1975, respectively.
