

Luis Reyes

Luis A. Reyes is the Regional Administrator for the Region II U.S. Nuclear Regulatory Commission Office located in Atlanta, GA. Prior to his current assignment he was the Executive Director for Operations at the U.S. Nuclear Regulatory Commission.

Mr. Reyes joined the NRC in February 1978, as a Reactor Inspector in the Region III Office located in Glen Ellyn, Illinois. He held progressively more responsible positions in Region III and subsequently in the Region II Office located in Atlanta, Georgia. He served as the first Senior Resident Inspector at the Davis-Besse site for which he received the Meritorious Service Award. Prior to joining the NRC, Mr. Reyes worked for the Argonne National Laboratory at the Experimental Breeder Reactor II facility located at the Idaho Engineering Laboratory.

Mr. Reyes received a Bachelor of Science Degree in Electrical Engineering and Master of Science Degree in Nuclear Engineering from the University of Puerto Rico. Mr. Reyes also completed post-graduate work in Fusion Energy and is a graduate of the Federal Executive Institute. He attended the Harvard University John F. Kennedy School of Government and received the Presidential Meritorious Rank Awards in 1991, 1999, and 2003. In 2007, he received the Presidential Distinguished Service Award, the highest award that can be given to a member of the Senior Executive Service.
