

## Mark Rubin

Mr. Rubin is Chief of the PRA Licensing Branch in NRR. His responsibilities include staff reviews of risk informed licensing actions, Topical Report, risk informed rule making, and development of new risk informed initiative.

He has been involved in earliest application of PRA insights to regulatory decision making, as well as directing development of the Agency's initial PRA Implementation Plan. Mr. Rubin also lead NRR activities associated with the risk informed Regulatory Guides and Standard Review Plans.

Some of the more active review areas under his direction include risk assessments for Extended Power Uprates {EPUs}, risk informed tech spec initiatives, PRA quality processes and severe accident mitigation alternative for license renewal.
