

Martin Sattison

Marty Sattison is the manager of the Risk, Reliability and NRC Programs Department at the Idaho National Laboratory. He has over thirty years of nuclear experience, including more than 27 years in probabilistic risk assessment. Marty has worked on numerous major risk assessment projects including the TMI-1 PRA, Zion NUREG-1150, and the early development of the SPAR models, as well as risk-related programs like SAPHIRE development, peer review of the International Space Station Risk Assessment and membership on the ASME PRA Standards Committee for Advanced non-Light Water Reactors. Marty is currently serving as the Chair of the Aerospace Nuclear Science and Technology Division of ANS and is a member of the Society of Reliability Engineers.
