

Gerald Waig

Mr. Waig is a Senior Reactor Engineer, Technical Specification Branch, Division of Inspection and Regional Support, Office of Nuclear Reactor Regulation (NRR). He has held this position since August 2007.

From 2002 to 2007, Mr. Waig was a Reactor Systems Engineer in the Operations Branch, Office of Nuclear Security and Incident Response and in Region IV, Office of the Regional Director, Response Coordination Branch.

Prior to joining the NRC, Mr. Waig was employed by the Connecticut Yankee Atomic Power Company and held various plant management positions including maintenance and operations department manager. Mr. Waig held a NRC senior reactor operator license and was a certified Institute of Nuclear Power Operations (INPO) instructor. He also served in the U. S. Navy submarine service.

Mr. Waig received a B.S. degree in Nuclear Engineering Technology from the University State of New York, Albany, New York and Shift Technical Advisor (STA) certification from Memphis State University, Memphis, Tennessee.
