Force-on-Force

- Overview
 - Past
 - Present
 - Future

Past

- Regulatory Effectiveness Reviews
 - Focus on Site Protective Measures
- Operational Safeguards Response Evaluations
 - Long Inspection Cycles
 - Focus on FOF Exercise

Present

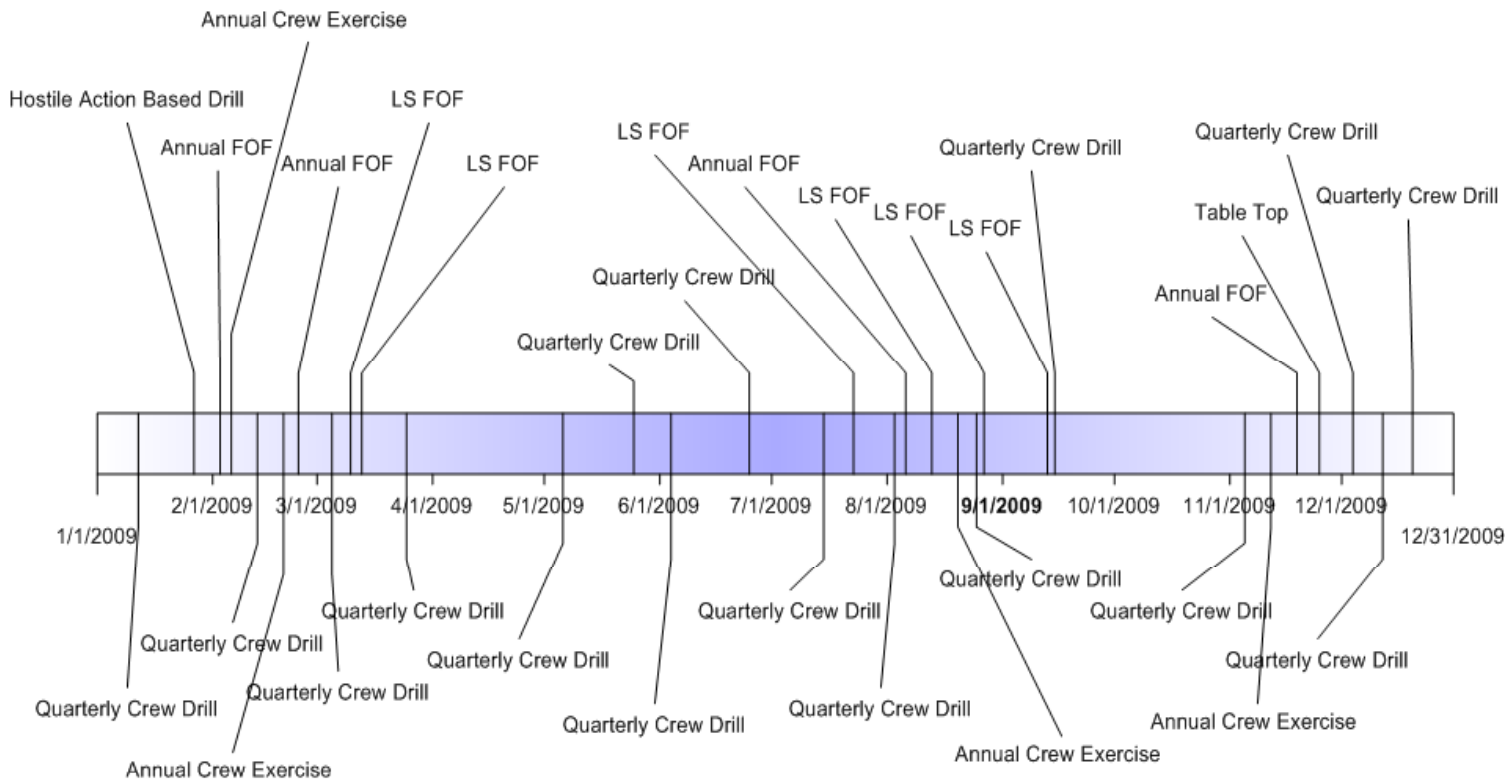

- Revised Design Basis Threat
- Issuance of NRC Orders
- Part 73 Rule
- NRC Force on Force Inspection
 - 3 Year Cycle
 - Extensive Review
 - Primary Focus on Exercises

Present

- Continual Training
- Quarterly Team Training
- Limited Scope Drills
- Table Top Exercises
- Annual Force on Force Drills
- Corrective Action Program

Present

TYPICAL SITE DRILL AND EXERCISE SCHEDULE

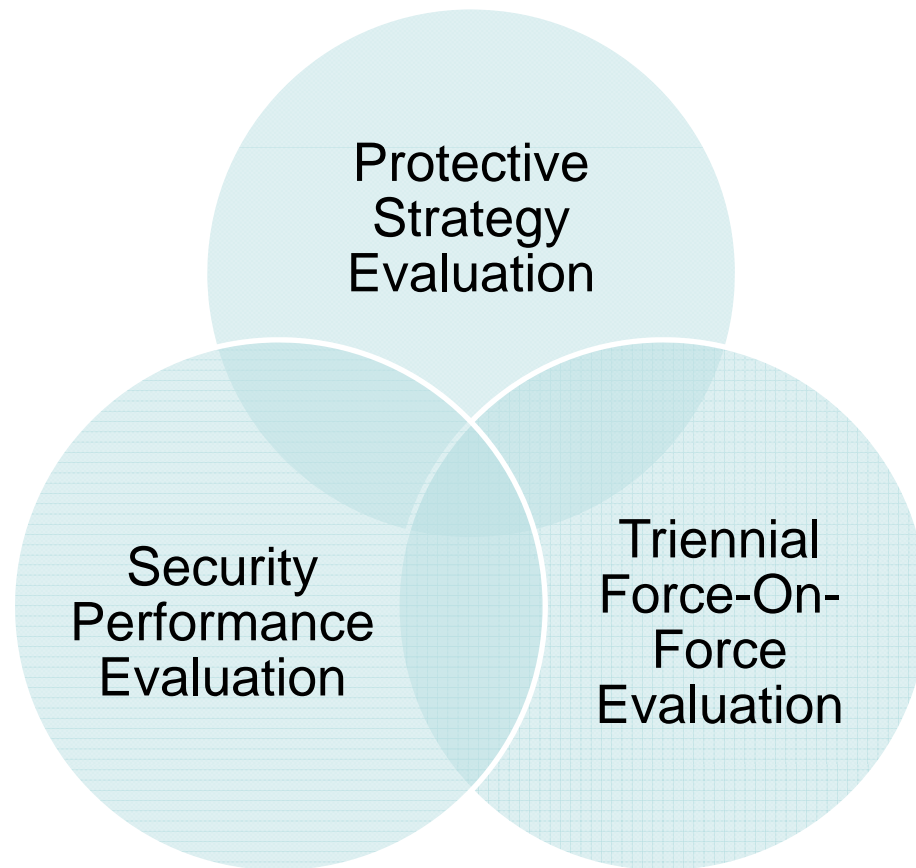

Future

- Industry Proposal
- Security Response Evaluation Program
 - Comprehensive Evaluation Program
 - Focus on Continuous Improvement of Overall Protective Strategy
 - Assesses a Broader Range of Activities

Security Response Evaluation Program

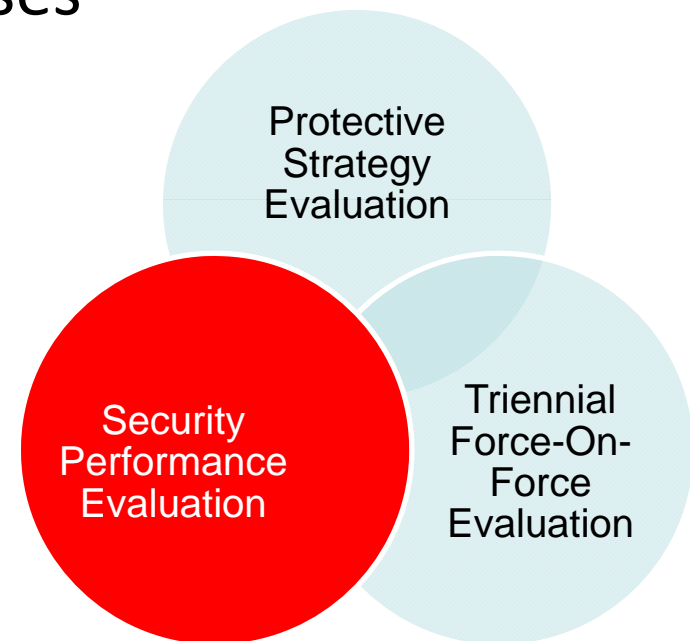

Future

- Security Response Evaluation Program
 - Protective Strategy Evaluation
 - Performance Evaluation Program
 - Triennial Force on Force Evaluation

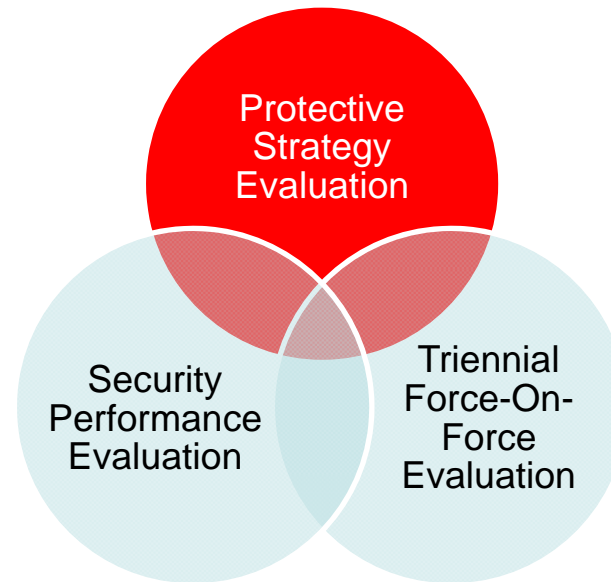

Future

- Separate from Triennial Exercises
- Performance Indicators
- Drills and Exercises
- Firearms Training
- Tactical Training
- Communications
- Scenario Development
- Exercise Critiques
- Corrective Action Program

Future

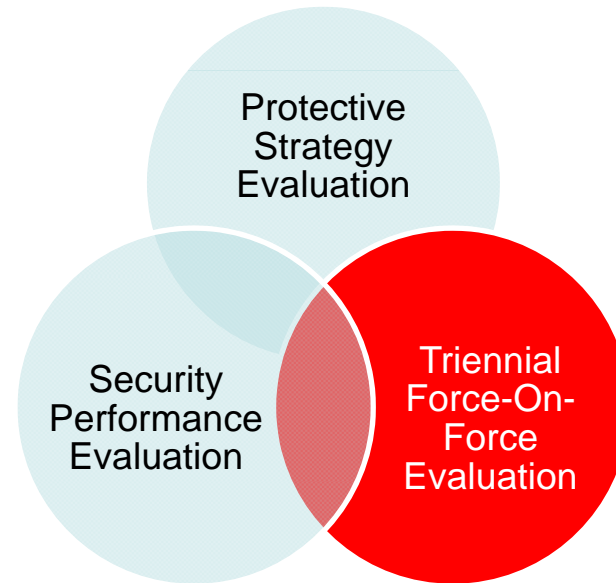

- Target Set Development
- Protective Strategy Elements
- Table Top Drills
- Defense Measures
- Tactics
- Weapons/Equipment
- Corrective Actions

Future

- Triennial FOF Inspection
- Corrective Actions

Summary

- Share Common Objective
- Force on Force Important to our Success
- Recommend Comprehensive Evaluation Process
- Corrective Action Program
- Need for Stability
