**Reviews**

David Passehl  
NRC Region III SRA  
March 10, 2010

## Regional Senior Reactor Analyst

- SPAR Models used by the SRAs to assess risk of
  - Events
  - Inspection findings
  - Equipment
  - Operator actions

## Regional Senior Reactor Analyst

- SPAR Models are efficient and effective tools.
- INL SPAR Model team has significant corporate knowledge and expertise.
- Technical Bases for models strongly depends on utility cooperation.
- Level of detail sufficient for NRC use.
