License Renewal Guidance Update – Capture Lessons Learned

- Update Standard Review Plan-License Renewal and Generic Aging Lessons Learned Report
- Develop bases document and a public comment NUREG

Update includes:

- Lessons learned from recent LR applications/SERs
- Consideration of NEI comments on the Generic Aging Lessons Learned Report
- Interim Staff Guidance
- New industry guidance and change of regulations

Overview of Draft Changes

- Focus on update of Aging Management Programs
- Augmenting Aging Management Programs such as buried piping and submerged cables
- Clarifying ASME Code use (including Code Cases and Reliefs)
- Adding new Aging Management Review lines

Overview of Draft Changes - continued

- Some Aging Management Programs re-focused on license renewal considerations vs. Part 50 operational issues
- Some Aging Management Programs reorganized to more closely align with the 10 element template in the Standard Review Plan for license renewal (Appendix A1)

Overview of Draft Changes - continued

- Reorganizing some Aging Management Programs (for example, M13 Cast Austenitic Stainless Steel subsumed by BWR and PWR internals)
- Eliminate Generic Aging Lessons Learned report Volume 1 since it contains duplicate material

Schedule

- Issue draft guidance documents in April for formal public comment period (45 days)
- Public workshop during public comment period
- Resolution of formal public comments
- ACRS review
- Updated guidance documents issued (December 2010)
