Flooding Lessons Learned and Near-Term
Regulatory Actions

Region IV Lessons Learned from Mississippi and
Missouri River Flooding

Jeff Clark, NRC Region IV
March 14, 2012

2011 Flooding Overview

- Discussion of river conditions
- Sites affected (5 Region IV facilities)
- Unprecedented durations

2

Extent of effects onsite

- Safety related equipment status
- Ranged from minor to substantial
- NRC monitoring actions

3

Lessons Learned - I

- Interactions with States and Locals
- Need to confirm design assumptions
- How to handle limited site access

5

Lessons Learned - II

- Supplies and equipment
- Thinking outside the box
- Continuing to think ahead
