OE Reporting

- Nuclear plants report important plant events through an electronic system available to members.
- An event report includes information such as:
  – Event summary
  – Cause summary
  – Corrective actions
  – Attribute coding

OE Documents

- Various levels of documents exist based on the importance of the event and the need for the industry to take specific actions.
- Recommendations and/or lessons learned are included in the documents.
- Documents are sent electronically to members and posted on a Member Website.

OE Videos

- Videos are developed for individual events, adverse event trends, and important industry topics.
- The videos often include interviews of station staff and those involved.
- Several videos have been filmed from within the plant.
- Videos are posted on a Member Website.
