

**US-NRC 25<sup>th</sup> Annual Regulatory Information Conference**  
**12-14 March 2013**

**Enhancing nuclear safety and regulatory infrastructure: IAEA technical cooperation activities in supporting of its Member States' nuclear power programmes**

Manase Peter Salema, Director  
Division for Europe  
Department of Technical Cooperation

---

---

---

---

---

---

---

---

**Outline of Presentation**

- The IAEA TC Programme (TCP)
- Safety & Regulatory activities in IAEA TCP
- Funding & Partnerships
- Experience & Future Outlook

2

---

---

---

---

---

---

---

---

**IAEA TC Programme: What it is...**

IAEA technical cooperation seeks to forge human and institutional capacity in Member States to safely utilize nuclear knowledge and technologies to address national development priorities and global issues

3

---

---

---

---

---

---

---

---

## IAEA TC Programme: What it does...

- Training (courses, workshops, fellowships, seminars, visits, conferences etc.)
- Expert advice and assistance
- Equipment & material
- Cooperation among Member States & Partners

4

---

---

---

---

---

---

---

---

## IAEA Role in safety & security

- Primary responsibility for safety and security rests with Member States
- Statutory Agency function: Establishing and continuously improving standards and guidance, and providing for their application
- One of the IAEA Medium Term Strategy 2012-2017 objective: Improving nuclear safety and security

*"The Agency has a key role to play in ensuring that the expansion in nuclear power takes place in an efficient, responsible and sustainable manner..."*

Yukiya Amano, Director General

5

---

---

---

---

---

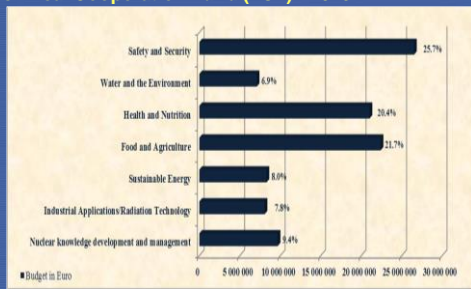

---

---

---

## Safety & security in IAEA TCP

### Technical Cooperation Fund (TCF) - 2013

6

---

---

---

---

---

---

---

---

## Member States needs

### MS Operating nuclear power:

- Operational safety
- Life extension
- Expansion of nuclear power programmes
- International obligations

### MSs embarking on nuclear power ("New Comers"):

- Decision making at all stages
- Appropriate infrastructure: special attention for regulatory infrastructure
- International obligations

7

---

---

---

---

---

---

---

---

## Key TC Programme Activities

- Updating nuclear law and regulations
- Establishing / strengthening regulatory infrastructure
- Support to review services in Member States (e.g. IRRS, OSART, EPREV) and implementation of recommendations
- Networks and partnerships for improving NPP / RR performance and safety

8

---

---

---

---

---

---

---

---

## Assistance to New Comers

- Dissemination of / training on IAEA guidance and international best practices
  - Considerations of all issues in a integrated manner – including safety, security, safeguards, and liability (integrated workplans)
  - Establishing and maintaining an effective regulatory system
- INIR (Integrated Nuclear Infrastructure Review)

9

---

---

---

---

---

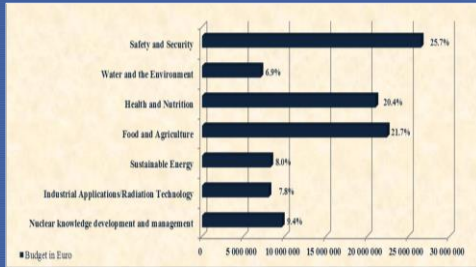

---

---

---

## Funding of the Programme

### Core funding (TCF)

---

---

---

---

---

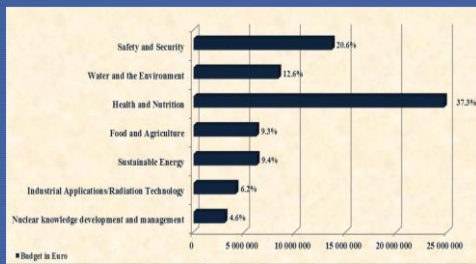

---

---

---

## Funding of the Programme

### Extra-budgetary (Donors)

---

---

---

---

---

---

---

---

## Partnerships

- Vital for achieving programme objectives
  - Financial
  - Technical
- Key international partnerships
  - USA (e.g. US-NRC, US-DoS, US-DoE)
  - European Commission
  - Peaceful Use Initiative (PUI)

---

---

---

---

---

---

---

---

## Experience & Future Outlook

- Widespread implementation of IAEA guidance with respect to nuclear legislation, safety and regulatory infrastructure requirements (Operating & New Comers)
- Proactive approach by the Agency is vital (two way cooperation)
- Partnerships and global cooperation is vital
- A continuing effort: continuous improvements in a changing environment

13

---

---

---

---

---

---

---

---

*Technical cooperation:  
delivering results for  
peace and  
development*
