U.S. Export and Import Licensing Regulations

Sponsored by the Office of International Programs

This multimedia presentation will describe the U.S. Government's import and export licensing activities under Title 10 of the Code of Federal Regulations, Part 110 and Part 810. This presentation will provide information on export and import licensing requirements, including: the scope of NRC's and DOE's jurisdiction, the license application and review process, annual reporting and pre-shipment notification requirements, and planned process improvements for both agencies. There will also be a PowerPoint presentation that will provide additional details and examples related to current international activities. Handouts in the form of booklets and other written material will be provided.
