

TSTF Technical Specifications Task Force
A Joint Owners Group Activity

TSTF Traveler Benefits and Challenges

Otto Gustafson
Entergy – Palisades

1

TSTF Technical Specifications Task Force
A Joint Owners Group Activity

Benefits

- Shared development & initial review costs
- Model application
- Model Safety Evaluation
- Consolidated Line Item Improvement Process (CLIP)

2

TSTF Technical Specifications Task Force
A Joint Owners Group Activity

Challenges

- Licensees not following the model application
- NRC not following the model Safety Evaluation, including subsequent Non-Concurrence

3

Potential Solutions

- NEI 06-02, Rev 5 License Amendment Request Guidelines
- Improve acceptance reviews performed on travelers
- NRC streamlining of traveler review and approval process
- Enforcement of April 2016 NRC's Reviewers Expectations Memo from Dir., NRR
- NRC revision of LIC-600 Review of Technical Specifications Task Force (TSTF) Travelers and Creation of 'CLIIP' Model Applications to include process to be followed should an NRC reviewer disagree with an approved traveler
- Coordinated and consolidated industry submittals
