

## Risk-Informed = Improved Safety Focus + Improved Performance

Scot Greenlee  
Senior Vice President  
Engineering and Technical Services  
Exelon Generation

NRC Regulatory Information Conference  
Session W20 "Metamorphosis to a More Risk Informed Regulator"  
March 14, 2018

---

---

---

---

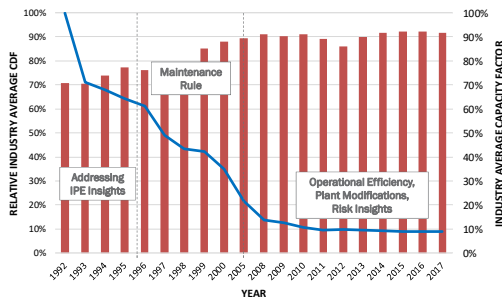

---

---

---

---

### Risk-informed Regulation Has Improved Safety

---

---

---

---

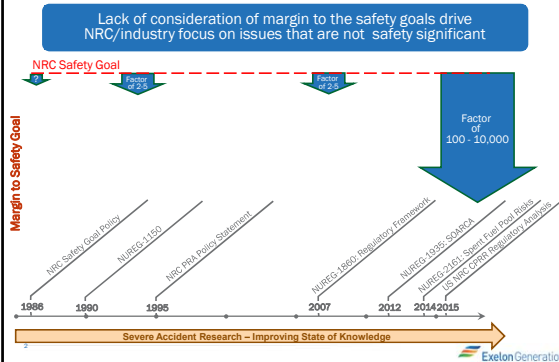

---

---

---

---

### Change in Perceived Safety Margin

---

---

---

---

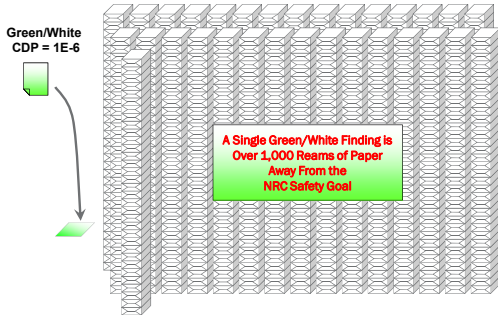

---

---

---

---

### Are We Expending Our Resources Effectively?

---

---

---

---

---

---

---

---

### Completing the Metamorphosis

1. Understand the safety/risk significance of decisions in the context of the true level of safety/risk
2. Enhance safety focus by accounting for safety/risk significance upfront
3. Reduce emphasis on non-significant/insignificant safety/risk issues
4. Focus resources in the ROP where safety/risk significance is involved
5. Embrace technology that can enhance plant safety and efficiency
6. Operationalize the safety focus through broad risk-informed initiatives
