

# **Modernizing the NRC's Radiation Protection Reactor Oversight Process**

Session Chair: Kevin Hsueh

Chief, Radiation Protection and Consequence Branch

NRC/NRR/DRA

March 12, 2019

## Panelists

Steve Garry, Sr. Health Physicist, U.S. Nuclear Regulatory  
Commission (NRC)

Dave Garmon, Health Physicist, NRC

Matt Kerns, Manager of Radiation Protection, Institute of Nuclear  
Power Operations

Brad Cole, Fleet Radiation Protection Manager, Entergy

Ellen Anderson, Director, Radiation Safety, Nuclear Energy Institute

## Discussion Questions

- What is the NRC Reactor Oversight Process enhancement initiative?
- What are the recent or proposed changes to regulatory programs affecting radiation protection?
- Why are the changes being proposed or made?
- What information is used to support the changes?
- What are the stakeholders' views on the NRC's recent or proposed changes?
- In what other areas should the NRC consider making changes?

# Thank You
