January 25, 2001

Mr. Eric Davis US Department of the Interior Fish & Wildlife Service Ecological Services 6669 Short Lane Gloucester, VA 23061

Re: Dominion's Surry and North Anna Power Stations Nuclear License Renewal

Dear Mr. Davis:

This correspondence follows recent telephone conversations that you have had with Dr. Jud White of Dominion's Environmental Policy and Compliance Department, about nuclear license renewal for Surry and North Anna Power Stations. Please find enclosed for your review Draft Environmental Reports for the license renewal application, one for each station, and a copy of previous Fish and Wildlife Service correspondence.

Following the correspondence from Ms. Mayne (April 27, 2000), Dominion has been working with the appropriate Commonwealth of Virginia agencies to discuss select Environmental Report issues. There is a meeting tentatively scheduled in early February 2001 to receive comments from those agencies' reviews. You are also invited to attend that meeting. We can correspond again to confirm your interest as that meeting date gets set. If you prefer to comment without attending the meeting in Richmond, receiving those comments or questions are welcome as well.

We regard our cooperative relationships with jurisdictional agencies such as yours important in meeting regulatory requirements and shared objectives. Your interest and active participation in our license renewal efforts and potentially with the U.S. Nuclear Regulatory Commission (NRC) later this year are appreciated.

Should you have questions regarding any of the enclosed information, please contact me at 804/273-2170, or Dr. Jud White at 804/273-2948.

Thank you for your attention to the matters presented herein.

Sincerely,

Tony Banks, MPH, CHMM

Re: Meeting at Dominion Generation (Virginia Power) to discuss Surry and North Anna Power Stations Nuclear License Renewal

Dear Mr. Fulgham:

This correspondence follows recent telephone conversations about nuclear license renewal for Surry and North Anna Power Stations. Your attendance is requested at an informational luncheon meeting, scheduled for December 12, 2000, at Dominion's Innsbrook Technical Center in Glen Allen, Virginia (directions are enclosed). The primary focus of the meeting is to discuss environmental requirements for license renewal and potential expectations of state agencies. Your attendance at this meeting and active participation in our license renewal efforts with the U.S. Nuclear Regulatory Commission (NRC) are considered vital to the application process, and are appreciated.

Dominion Generation will submit an application for renewal of the Surry and North Anna operating licenses next summer, 2001. A key component of the application is an Environmental Report that addresses specific issues, and which also pertains to your agency's interests and functions. We regard our cooperative relationships with jurisdictional agencies such as yours important in meeting regulatory requirements and shared objectives.

In preparation of the meeting and for your review, please find enclosed written sections of the Environmental Reports that apply to your area of responsibility. Additional components of these reports will be presented and reviewed at the meeting.

Should you have questions regarding any of the enclosed information prior to December 12, please contact Mr. Tony Banks at 804/273-2170, or Mr. Jud White at 804/273-2948. If you are unable to attend, or you would like to bring an additional staff member to the meeting, we request that you notify us to accommodate meal planning.

Thank you for your attention to the matters presented herein.

Sincerely.

Dominion Generation (Virginia Power) Nuclear License Renewal Luncheon Meeting

Time:

11:00 to 2:00

Location:

Innsbrook Technical Center Ground Floor Conference Room A

Directions to Innsbrook:

From Richmond via I-64 West -

First exit past Gaskins Rd, Exit onto Broad St (250 E) back toward Richmond, Make first left at the traffic light onto Dominion Blvd, Follow the road around the S-curve to enter the center Parking Lot near the flagpoles.

Enter the central glass doors, proceed to the Security Desk, where they will direct you to the Ground Floor Conference Room A.

From Richmond via Broad St (250 W) -

Proceed past main entrance road to Innsbrook (Cox Rd) to the next traffic light (Dominion Blvd), Make right onto Dominion Blvd, Follow the road around the S-curve to enter the center Parking Lot near the flagpoles.

Enter the central glass doors, proceed to the Security Desk, where they will direct you to the Ground Floor Conference Room A.

Pamela F. Faggert Vice President and Chief Environmental Officer 5000 Dominion Boulevard, Glen Allen, VA 23060 Phone: 804-273-3467

November 13, 2000

Mr. John Davey, Director Planning and Recreation Resources Virginia Department of Conservation and Recreation 203 Governor Street, Suite 326 Richmond, VA 23219

Re: Meeting at Dominion Generation (Virginia Power) to discuss Surry and North Anna Power Stations Nuclear License Renewal

Dear Mr. Davey:

This correspondence follows recent telephone conversations about nuclear license renewal for Surry and North Anna Power Stations. Your attendance is requested at an informational luncheon meeting, scheduled for December 12, 2000, at Dominion's Innsbrook Technical Center in Glen Allen, Virginia (directions are enclosed). The primary focus of the meeting is to discuss environmental requirements for license renewal and potential expectations of state agencies. Your attendance at this meeting and active participation in our license renewal efforts with the U.S. Nuclear Regulatory Commission (NRC) are considered vital to the application process, and are appreciated.

Dominion Generation will submit an application for renewal of the Surry and North Anna operating licenses next summer, 2001. A key component of the application is an Environmental Report that addresses specific issues, and which also pertains to your agency's interests and functions. We regard our cooperative relationships with jurisdictional agencies such as yours important in meeting regulatory requirements and shared objectives.

In preparation of the meeting and for your review, please find enclosed written sections of the Environmental Reports that apply to your area of responsibility. Additional components of these reports will be presented and reviewed at the meeting.

Should you have questions regarding any of the enclosed information prior to December 12, please contact Mr. Tony Banks at 804/273-2170, or Mr. Jud White at 804/273-2948. If you are unable to attend, or you would like to bring an additional staff member to the meeting, we request that you notify us to accommodate meal planning.

Thank you for your attention to the matters presented herein.

Sincerely.

P. F. Faggert
