**Legend:** R=Red    W=White    T=Thresholds under development    N=Not Applicable    D=Discrepant  
 Y=Yellow    G=Green    I=Insufficient data to calculate PI    U=Unique Design

**IE01 = Unplanned Scrams per 7000 Critical Hours**      **IE04 = Unplanned Scrams with Complications**  
**IE03 = Unplanned Power Changes**                      **MS05 = Safety System Functional Failures**  
**MS06 = Emergency RC Power System**                      **MS07 = High Pressure Injection System**  
**MS08 = Heat Removal System**                              **MS09 = Residual Heat Removal System**  
**MS10 = Cooling Water Systems**                              **BI01 = Reactor Coolant System Specific Activity**  
**BI02 = Reactor Coolant System Leak**                      **EP01 = Drill/Exercise Performance**  
**EP02 = ERO Drill Participation**                              **EP03 = Alert and Notification System**  
**OR01 = Occupational Exposure Control Effectiveness**      **PR01 = RETS/ODCM Radiological Effluent**
