**SUBJECT: ASSESSMENT FOLLOW-UP LETTER FOR COMANCHE PEAK NUCLEAR  
POWER PLANT, UNITS 1 AND 2**

Dear Mr. Flores:

As a result of its continuous review of plant performance, the Nuclear Regulatory Commission (NRC) updated its assessment of Comanche Peak Nuclear Power Plant, Units 1 and 2. The NRC's evaluation consisted of a review of performance indicators and inspection results. This letter informs you of the NRC's assessment of your facility and supplements, but does not supersede, the annual assessment letter issued on March 4, 2015.

On April 28, 2015, the NRC issued a letter to you (ML15118A608) that described the final significance determination of one or more greater-than-green inspection finding(s) in the Security Cornerstone.

Based on the aforementioned letter, the NRC determined the performance at Comanche Peak Nuclear Power Plant, Units 1 and 2, to be in the Regulatory Response Column of the Reactor Oversight Process Action Matrix, effective the third quarter of 2014. Therefore, the NRC plans to conduct a supplemental inspection. The NRC requests that your staff provide notification in writing of your readiness for the NRC to conduct this supplemental inspection.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
