

The assessment of Davis-Besse is under the auspices of Inspection Manual Chapter (IMC) 0350, "Oversight of Operating Reactor Facilities in Shutdown Condition with Performance Problems." Therefore, periodic assessment (quarterly, mid-cycle, and end-of-cycle) of licensee performance is no longer under the auspices of IMC 0305, "Operating Reactor Assessment Program." For more information on performance and activities at Davis-Besse, refer to the NRC Web site at:
