

Assessment follow-up letters are issued approximately eight weeks after the conclusion of the first and third quarters and on an as-needed basis for those plants having changes in an assessment status since the previous mid-cycle or annual assessment letter.

Assessment follow-up letters, if applicable, are located at the 20YYq1 and 20YYq3 hyperlinks.

Mid-cycle letters are located at the 20YYq2 hyperlinks, and annual assessment letters are located at the 20YYq4 hyperlinks. If a 20YYq2 or 20YYq4 link displays this form, the applicable assessment letter has not yet been issued.
