MEMORANDUM FOR: John C. Hoyle, Secretary  
FROM: Nils J. Diaz  
SUBJECT: COMJSM-98-002

I do not concur with the proposed actions in [COMJSM-98-002](#). I believe it is indispensable that the agency stays in the course set by the Commission after so many years of deliberations and consultations. There is always room for improvements but the proposed changes are not significant (economically or otherwise) when compared to the established policy itself. Furthermore, I believe we need to implement the NRC KI policy as is for awhile before any changes to it are considered.
