COMMENT RESOLUTION

In their vote sheets, Chairman Jackson and Commissioners Dicus and Diaz approved the staff's recommendation (option 3). Commissioner McGaffigan disapproved option 3, preferring instead option 2, under which the staff would have continued detailed reviews of license files for Agreement State sites but not conduct on-site inspections. Although supporting option 3, Commissioner Diaz would have preferred the elimination of NRC staff evaluations of States' activities from the Integrated Materials Performance Evaluation Program (IMPEP). In their comments, Chairman Jackson and Commissioners Dicus and McGaffigan supported the concept of working with the Agreement States to identify mechanisms for providing additional Federal assistance to the Agreement States, such as a general fund appropriation outside the NRC fee base, in dealing with these sites. These comments have been incorporated into the guidance to staff as reflected in the SRM issued on November 7, 1997.
