**Commissioner Jaczko's Comments on SECY-07-0108
Rulemaking Plan to Revise 10 CFR 51.22, "Criterion for Categorical Exclusion;
Identification of Licensing and Regulatory Actions Eligible for Categorical Exclusion or
Otherwise not Requiring Environmental Review**

I approve the staff's recommendation to proceed with rulemaking to revise the categorical exclusion requirements of 10 CFR Part 51. The scope of the amendment envisioned by the staff would clarify the current categorical exclusion requirements and add new categories of actions for which the staff believes have no significant impact on the human environment. While revising the categorical exclusions provisions could lead to greater efficiency and effectiveness in implementing the agency's National Environmental Policy Act responsibilities, I would caution the staff to only include minor or administrative additions to the requirements.
