Point Beach Nuclear Plant - Public Meetings to Discuss Draft Environmental Impact Statement for License Renewal

On March 3, 2005, NRR staff and its contractors, supported by staff members from the Office of General Counsel, Office of Public Affairs, and Region III, conducted two public meetings (two identical sessions held at 1:00 p.m. and at 7:00 p.m., respectively) at the Fox Hills Convention Center in Mishicot, Wisconsin. The purpose of the meetings was to solicit comments on the draft supplemental environmental impact statement (SEIS) related to the license renewal application for Point Beach Nuclear Plant, Units 1 and 2. The draft SEIS was issued on January 13, 2005. Attendees at the meetings included members of the public, representatives of the State and local governments, and the local news media. The public comment period for the draft SEIS ends on April 13, 2005. Upon conclusion of the comment period, the staff will evaluate the comments received, revise the draft SEIS as appropriate, and will issue the final SEIS.

Staff Participates in Waste Management '05 Symposium

On February 27-March 3, 2005, staff from the Division of Waste Management and Environmental Protection participated in the Waste Management '05 Symposium held in Tucson, Arizona. The symposium was well attended, with several thousand participants from the U.S. and abroad. NRC involvement in the symposium included: (a) participation on an international panel on dismantlement and decommissioning; (b) participation in Program Advisory Committee meetings; (c) participation in planning committee meetings for the September 2005 International Conference on Environmental Remediation and Radioactive Waste Management; (d) participation in a meeting with Consejo de Seguridad Nuclear, Spain's commission for nuclear safety, on topics of mutual interest; and (e) presentation of several technical papers dealing with the status of the decommissioning program, the status of the Package Performance Study, and the recent revision to 10 CFR Part 71, to ensure alignment with the International Atomic Energy Agency transportation standard.

Week Ending March 11, 2005

Agreement Between the NRC and the European Atomic Energy Community (EURATOM)

On March 4, 2005, the Executive Director for Operations signed the international Agreement extending the Technical Exchange and Cooperation Arrangement between the NRC and EURATOM. This Arrangement defines the terms and conditions that will enable the NRC and EURATOM (represented by the Commission of the European Communities) to engage in a broad exchange of technical information and to develop specific implementing agreements for cooperation in the field of nuclear safety research on the basis of mutual benefit and reasonable equity and reciprocity. This Agreement will become effective upon signature of both parties and will remain in effect for a period of five years.

NRC's Internal Risk Communication Guidelines - NUREG/BR-0318

On March 11, 2005, the staff published the second set of agency-wide risk communication guidelines, NUREG/BR-0318, "Effective Risk Communication - Guidelines for Internal Risk Communication." The first set of guidelines, NUREG/BR-0308, "Effective Risk Communication: The NRC's Guidelines for External Risk Communication," which focused on risk communication to external stakeholders, was issued in March 2004. The second set of guidelines is intended to improve the staff's ability to communicate risk insights and information within the agency.

Meeting with OECD/Nuclear Energy Agency (NEA)

During the week of March 7, 2005, RES staff met with the OECD [Organization for Economic Co-operation and Development], NEA's ad hoc Expert Group on Digital Instrumentation and Controls (EGDIC). The purpose of the meeting was to draft a proposal to present research recommendations that could decrease the gap between the needs for new research knowledge and/or improved regulatory practices and current NEA activities. The proposal would also recommend practical actions to be considered by the Committee on the Safety of Nuclear Installations and the Committee on Nuclear Regulatory Activities (CNRA). Activities outside the NEA program of work also were taken into account to avoid unnecessary duplication of effort. The EGDIC will submit its draft proposal to the OECD/NEA by the end of March.

Nuclear Security and Incident Response (NSIR)  
Items of Interest  
Week Ending March 11, 2005

Preliminary Notifications:

PNO-III-05-004, Clinton Power Station - SHUTDOWN FOR GREATER THAN 72 HOURS TO REPAIR DAMAGED FEEDWATER EXTRACTION STEAM LINE.

New Reactor Licensing - Emergency Planning

On March 3-4, 2005, Division of Preparedness and Response/Emergency Preparedness Directorate staff participated in Category 2 public meetings with the Nuclear Energy Institute (NEI) and other stakeholders, regarding NRC consideration of Nuclear Energy Institute (NEI) document NEI 04-01, "Draft Industry Guidelines for Combined License Applications Under 10 CFR Part 52." The document is currently under development, and various Emergency Preparedness related issues among other new reactor licensing issues will be addressed prior to its endorsement by the staff.

Items of Interest  
Week Ending March 11, 2005

Proposed Rule and Draft Regulatory Guide - Post-Fire Operator Manual Actions

On March 7, 2005, NRC published a proposed rule (AH54- Part 50) and the supporting draft regulatory guide in the Federal Register (70 FR 10901) that would amend its fire protection regulations for nuclear power facilities. The proposed amendment would allow nuclear plant licensees to use manual actions by plant operators as an alternative method to achieve hot shutdown conditions in the event of fires in certain plant areas. The public comment period on the proposed rule and the draft regulatory guide ends on May 23, 2005.

Visit of Ukrainian Delegation to Discuss Assistance Program

A delegation from the State Nuclear Regulatory Committee of Ukraine (SNRCU), led by Chairman Vadym Gryschenko, visited the NRC headquarters offices during the week of February 28 to discuss progress in and plans for the NRC assistance program. NRC technical staff and the Ukrainian delegation held discussions in the technical areas of particular interest to the SNRCU. While in the U.S., the delegation met with representatives of the Departments of State and Energy as well as with vendor representatives. At the end of the week, Mr. Gryschenko and Mr. Luis Reyes, the Executive Director for Operations, signed the Memorandum of Meeting which documented the plans for the assistance program over the next two years.

JAERI Representatives Visit to NRC to Discuss Emergency Preparedness & Response

On March 7, 2005, Mr. Toshimitsu Homma and Mr. Sohei Sato of JAERI [Japan Atomic Energy Research Institute] visited the NRC headquarters offices and met with staff from the Emergency Operations Center to discuss issues related to emergency preparedness and response. The Japanese government is evaluating their emergency preparedness capabilities and are surveying other similar programs for lessons learned.

Taiwan AEC Visit to NRC to Discuss Reactor Regulation Issues

On March 7, 2005, Mr. Hsiao-Chung Niu of Taiwan Atomic Energy Council (AEC), accompanied by Mr. Shih-Kuei Chen of Taipei Economic and Cultural Representative (TERCO), visited the NRC headquarters and met with NRC staff to discuss various reactor safety issues including fire protection requirements, ultrasonic flow measurement accuracies, quality controls for commercial grade items, and containment sump performance.

Dr. Keiji Kanda, Director of Japan Energy Policy Institute Visits NRC

On March 7, 2005, Dr. Kanda, accompanied by Mr. Masaaki Nishijo of the Japanese Embassy, visited the NRC headquarters offices and met with Commissioner Lyons and the Director of the Office of International Programs, to discuss matters related to NRC's reactor design review and licensing process.
