SECY-07-0019

FOR: The Commissioners

FROM: Luis A. Reyes
Executive Director for Operations /RA/

SUBJECT: SUBMISSION OF THE ANNUAL FREEDOM OF INFORMATION ACT REPORT

PURPOSE:

This paper conveys to the Commission a copy of the U.S. Nuclear Regulatory Commission's (NRC) annual Freedom of Information Act (FOIA) Report for fiscal year (FY) 2006.

BACKGROUND:

With the enactment of the Electronic FOIA Amendments of 1996, Public Law 104-231, 101 Stat. 3048, Congress revised Subsection (e) of the FOIA, which pertains to the submission of annual FOIA reports by Federal agencies. Congress directed the U.S. Department of Justice (DOJ), in consultation with the Office of Management and Budget, to issue guidelines for Federal agencies to use in preparing and submitting their annual FOIA reports.

Under the guidelines, Federal agencies are to send their annual reports to the DOJ Office of Information and Privacy and include in their reports the agency-specific uniform resource locator (URL) for Web-based access to their report. DOJ provides a single point of access on its Web site for all annual FOIA reports, through a link to each agency's FOIA page, and notifies Congress when all reports have been posted on the agency's Web site.

DISCUSSION:

Enclosed is the NRC's Annual FOIA Report for FY 2006. Section VIII (page 7) of the enclosed report compares NRC's FY 2006 data to FY 2005. The median number of days for pending FOIA requests decreased significantly from 94 in FY 2005 to 15 at the close of FY 2006. This 84 percent decrease was achieved by closing several requests with thousands of pages that

had been open for more than a year, driving up the number of days in FY 2005. The percent of change from FY 2004 to FY 2005 was an increase of 74 percent (from 54 to 94) because of those cases. With those cases closed, staff was able to focus on other requests. A reduction in the number of incoming requests from 371 in FY 2005 to 320 in FY 2006 also enabled staff to focus on older cases.

The NRC staff will submit the enclosed annual FOIA report for FY 2006 to the DOJ Office of Information and Privacy and place the report on the NRC's public Web site by February 1, 2007. The URL for the NRC's annual FOIA report for FY 2006 will be <http://www.nrc.gov/reading-rm/foia/foia-privacy.html>.

The DOJ's Office of Information and Privacy has requested additional information due to the issuance of Executive Order 13392, "Improving Agency Disclosure of Information." The staff included the requested information in Section XII of this report.

III. Definitions of Terms and Acronyms Used in the Report

A. Agency-specific acronyms or other terms.

NRC-defined acronyms are available on the NRC Web site at <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr0544/r4//>

B. Basic terms, expressed in common terminology.

1. Freedom of Information Act/Privacy Act request (FOIA/PA). A FOIA request is a request for access to records concerning a third party, an organization, or a particular topic of interest. A Privacy Act request is a request for records concerning oneself; NRC also treats such requests as FOIA requests. (All requests for access to records, regardless of which law is cited by the requester, are included in this report.)
2. Initial request – a request to a Federal agency for access to records under the FOI Act.
3. Appeal – a request to a Federal agency asking that it review at a higher administrative level a full denial or partial denial of access to records under the FOIA, or any other FOIA determination such as a matter pertaining to fees.
4. Processed request or appeal – a request or appeal for which an agency has taken a final action on the request or the appeal in all respects.
5. Multi-track processing – a system in which simple requests requiring relatively minimal review are placed in one processing track and more voluminous and complex requests are placed in one or more other tracks. Requests in each track are processed on a first-in/first-out basis. A requester who has an urgent need for records may request expedited processing (see below).
6. Expedited processing – an agency will process a FOIA request on an expedited basis when a requester shows an exceptional need or urgency

for the records warranting the agency to prioritize his or her request over other earlier requests.

7. Simple request – a FOIA request that an agency using multi-track processing places in its fastest (non-expedited) track based on the volume and/or simplicity of records requested.
8. Complex request – a FOIA request that an agency using multi-track processing places in a slower track based on the volume and/or complexity of records requested.
9. Grant – an agency decision to disclose all records in full in response to a FOIA request.
10. Partial grant – an agency decision to disclose a record in part in response to a FOIA request, deleting information determined to be exempt under one or more FOIA's exemptions; or an agency decision to disclose some records in their entirety, but to withhold others in whole or in part.
11. Denial – an agency decision not to release any part of a record or records in response to a FOIA request (a) because all the information in the requested records is determined by the agency to be exempt under one or more of the FOIA's exemptions, or (b) because of a procedural reason (such as no record is located in response to a FOIA request).
12. Time Limits – the time period allocated in the FOIA for an agency to respond to a FOIA request (ordinarily 20 working days from proper receipt of a "perfected" FOIA request).
13. Perfected request – a FOIA request for records that adequately describes the records sought, which has been received by the FOIA office of the agency or agency component in possession of the records, and for which there is no remaining question about the payment of applicable fees.
14. Exemption 3 statute – a separate Federal statute prohibiting the disclosure of a certain type of information and authorizing its withholding under Subsection (b)(3) of the FOIA.
15. Median number – the middle, not average, number. For example, for the set of 3, 7, and 14, the median number is 7.
16. Average number – the number obtained by dividing the sum of a set of numbers by the quantity of numbers. For example, for 3, 7, and 14, the average number is 8 (the sum is 24, which is then divided by 3).

IV. Exemption 3 Statutes

A. List of Exemption 3 statutes relied on by agency during current fiscal year.

1. Brief description of type(s) of information withheld under each statute.

E. Other agency efforts to improve the timeliness of FOIA performance and to make records available to the public:

The NRC FOIA Web site lists all FOIA requests that were completed during the year by subject.

NRC provided training on the FOIA process to various staff offices emphasizing specific office needs.

NRC uses several internal agency service levels to enhance the agency's processing timeliness. Offices are provided with status reports of open cases to heighten management awareness.

In addition to providing general public access to material released under the FOIA, in FY 2006 the NRC placed more than 49,115 of its official agency records in its Agencywide Documents Access and Management System (ADAMS). These documents are available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System (PARS) component of ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Electronic Reading Room). NRC's extensive voluntary release program has resulted in 2.9 million documents made publicly available either in paper, microfiche, or electronic format.
